

What Our Investors Say

“Kudos to great job done like giving headups to us informing the loan will be overdue and follow up action has been made. And the recent changes via email to alert us new deals, interest rate, and key information is short and direct to the point.”

“Your platform excels in having strong credit fundamental, investor-oriented and did good due diligence check on the borrowers too.” Former trade banker

“The deals are self liquidating so takes away need for evaluation of exit strategy compared to my other investments. The choice of different grade invoices with the respective returns allows me flexibility to adjust risk level of the portfolio to complement my other investments.” Financial Consultant, former banker

“I like that the deals are self-liquidating so that my funds are not tied up for a long period. This investment is a good alternative to bonds and equities.” Private Wealth Consultant

“Very easy and intuitive. Very good UI and UX.” Bank trade specialist
